PARLIAMENT BUILDINGS,

TORONTO, DEC. 3RD, 1913.

To His Honour SIR JOHN MORISON GIBSON, Knight Commander of the Most Distinguished Order of St. Michael and St. George, a Colonel in the Militia of Canada, etc., etc., Lieutenant-Governor of the Province of Ontario.

MAY IT PLEASE YOUR HONOUR:

I beg to submit herewith the Forty-fourth Annual Report upon the Hospitals and Charitable Institutions of Ontario, being for the official year ending September 30th, 1913.

I have the honour to be,

Your Honour's obedient servant,

W. J. HANNA,

Provincial Secretary.

OFFICE OF THE
INSPECTOR OF PRISONS AND PUBLIC CHARITIES, ONTARIO.

PARLIAMENT BUILDINGS, TORONTO, Nov. 14TH, 1913.

SIR,—I have the honour to transmit herewith, to be presented to His Honour the Lieutenant-Governor, the Forty-fourth Annual Report upon the Hospitals and Charitable Institutions, etc., for the official year ending September 30th, 1913.

I have the honour to be, Sir,

Your obedient servant,

R. W. BRUCE SMITH,

Inspector.

THE HONORABLE W. J. HANNA, M.P.P.,

Secretary of the Province of Ontario.

Toronto.

Hospitals and Charitable Institutions

In presenting the forty-fourth annual report on the Hospitals and Charitable Institutions for the year ending September 30th, 1913, I beg to state that there are at present in Ontario:—

- 89 Public Hospitals, including 12 Sanatoria for Consumptives.
- 57 Private Hospitals.
- 37 Refuges.
- 33 Orphanages.
- 3 Homes for Incurables.
- 3 Convalescent Homes.
- 31 County Houses of Refuge.

These have received official visits of inspection during the year, and those entitled to Government aid in accordance with the Statute have shared in the grants voted by the Legislature for Hospitals and Charities.

THE HOSPITALS.

The record of the year indicates the continued success and progress of the Hospitals of Ontario:

Number of patients in the hospitals, October 1st, 1912	3,608
Number of patients admitted during the year	60,920
Number of births in the hospitals during the year	4,210
Total number under treatment during year	68,738

The above figures do not include those who received medicine and treatment as outdoor patients.

Number of deaths during the year	4,058
Percentage of deaths to number under treatment	5.90
Total number of days' stay in the hospitals	1,406,677
Provincial grant to hospitals	\$232,376 03
Amount received from all sources	2,026,035 05
Subscriptions, donations. etc.	231,515 88
Total expenditure for hospitals (including capital account, \$1,183,- 762.42)	3,155,340 09
Average cost for each patient per day	1.48
Percentage of Provincial grant to total maintenance expenditure...	.118

PROVINCIAL AID TO HOSPITALS.

1. A Provincial grant is made for all patients in a hospital during the first ten years of its existence at the rate of twenty cents per day, irrespective of what sum is contributed by the patients themselves.

2. After a hospital has been in existence for ten years the grant is paid only for patients for whose maintenance \$7.00 per week or less is contributed.

3. In all cases the limit is 120 days, and if the patients remain in the hospital longer than that period the refuge rate of seven cents per day is allowed.

4. Children over one year and under twelve years are allowed for at the rate of seven cents per day.

5. No allowance is made for infants under one year of age.

AID TO SANATORIA FOR CONSUMPTIVES.

1. A grant of \$4,000 on the erection and satisfactory equipment of the necessary buildings.

2. A grant of three dollars per week for the maintenance of each patient for whose support \$4.90 per week or less is contributed.

These grants to be in consideration of proper accommodation being provided, and only to assist in the maintenance of indigent patients coming from the Province of Ontario. There were 1,781 patients cared for in the 9 different Sanatoria for Consumptives during the past year.

THE YEAR'S WORK.

The progress made in the Hospitals of Ontario during recent years may justly be considered commendable. Twenty years ago there were only thirty-four hospitals in this Province; to-day there are eighty-nine such institutions.

The following table is of interest:

—	Total number of patients.	Total expenditure for hospital maintenance,
1893. 34 hospitals.....	14,363	\$ 321,473 44
1903. 61 " 	39,223	852,240 51
1913. 89 " 	68,738	1,971,577 67

Ten years ago there was only one Sanatorium for Consumptives: to-day there are 8 Sanatoria for Consumptives in different parts of Ontario.

This splendid showing is a tribute to the philanthropy of the people through whose benevolence hospitals have been provided in every part of the Province. To the credit of Ontario, no public hospital has yet been compelled for lack of support to close its doors, and in many places where doubts were at first expressed regarding the likelihood of hospitals to be sustained experience has demonstrated that the local hospital is now looked upon as a necessity in every County. Some of the most thriving hospitals are located in the towns, and before long every physician in Ontario will be provided with hospital facilities for his patients within easy reach of their homes.

During the past year, Sir William Osler, in his address as President of the British Hospital Association, made reference to the system of hospitals in Ontario as an example to the whole world. Commendation from such an eminent authority must be regarded as highly satisfactory. The Ontario Hospital Act of 1912 has been pronounced by English Journals as furnishing a standard worthy of adoption by other countries. The Old Country hospitals have been

founded and exist solely for the treatment of people unable to pay for their maintenance. The result has been to encourage pauperism to such an extent as to render difficult the financing of many of the British Hospitals, notwithstanding their great endowments. The middle classes in England are not provided for and have to resort to Nursing Homes, many of which Sir William Osler declares are poorly equipped and indifferently managed. Instead of providing in General Hospitals, as is done in Ontario, for rich and poor with a system of graded charges, the poor alone are admitted, and, instead of all classes of the community being cared for, the hospital is regarded as an institution only for those in needy circumstances.

The Ontario Hospital Act provides that poor people shall have every necessary care, but that those able to pay for their maintenance shall be encouraged to do so. The Act further provides that the burden of caring for the poor shall not be placed wholly upon the hospital management, but a portion paid by the municipality from which the patient came to the hospital. On the other hand, accommodation is provided for those able to pay more than what it actually costs for maintenance and the surplus goes to assist in paying for those unable to contribute the full quota. In brief, the system in Ontario is that the rich help the poor, and everyone is encouraged to contribute according to their means. The result is that the total cost is so distributed that the hospital cannot be regarded as a burden to any community.

NEW TORONTO GENERAL HOSPITAL.

The completion of the new Toronto General Hospital, at a cost of \$3,500,000, must be regarded as the great hospital event of the year. It will afford accommodation for over seven hundred patients and its completion has been most satisfactorily accomplished. The members of the Hospital Trust have demonstrated what may be accomplished by earnestness and sincerity of purpose, deservedly meriting and securing liberal support in carrying out a great scheme for the public weal. Probably never before on the American Continent has any single Hospital Board succeeded in bringing to completion such an undertaking and enabling the hospital to open its doors, with practically no debt to encumber its future maintenance. Only those actively interested in hospital work can appreciate what has been accomplished. Probably there is to-day in many respects no better hospital in the world, and civic pride can justly be taken in the splendid pile located in the most central part of the city and made readily accessible by an efficient system of motor ambulances.

A few years ago, when the American Hospital Association was convened in Toronto, hospital conditions were such that the visitors expressed surprise. To-day if such a gathering was held the General and the Hospital for Sick Children and Nurses' residence could be pointed to with the satisfaction of knowing that these are institutions unsurpassed on this continent.

St. Michael's and the Western Hospitals have also, during the past year, made substantial additions to their equipment.

TORONTO'S GREATEST HOSPITAL NEED.

The necessity for having in Toronto a reception hospital for nervous and mental diseases is now a recognized requirement which cannot longer be delayed. Proper provision for the treatment of incipient insanity is most inadequate.

The barbarous custom of committing many suspected of being insane to gaol is now, by recent legislation, declared illegal. In a city of nearly half a million people, cases are daily reported for whose care and treatment some provision must be made. The City of Toronto has provided by by-law one hundred thousand dollars for such an institution. The history of every such Reception Hospital shows that a large percentage of the patients who were given the advantage of treatment in the early stages recovered without having to be sent to the larger hospital. The excellent work accomplished by Reception Hospitals was first demonstrated in Germany where, under the name of Psychiatric Clinics, it has for years been demonstrated that in the incipient stages mental and nervous diseases can be cured without having to commit such patients by legal process. Insanity, although one of the most dreaded diseases, is still little understood by the medical student at graduation. A Reception Hospital in a great University centre like Toronto, would afford facilities for the individual study of all that phenomena known as insanity and the future medical graduate would go forth with clinical advantages which would indirectly prove of incalculable benefit to the community at large. The Provincial Hospitals afford excellent provision for the insane and the scientific treatment of the patients in Ontario institutions is fully equal to that found in any other country, but the progress being made directs attention to the necessity for a special central Reception Hospital. Those who are specially engaged in the Provincial Hospitals have been the first in Ontario to point out the advantages that would come from having in Toronto a Reception Hospital where incipient cases might be kept under observation. Within the next two years the Provincial Hospital will be moved from Queen St. to Whitby, and in a city the size of Toronto what is now a great need will then be regarded as an absolute necessity. Toronto gaol will no longer be available and the emergency cases must be provided for. The time, therefore, seems most opportune for action. The needs for such an institution are fully recognized. A Reception Hospital might with advantage be organized by the city, but placed under Government control and management, and have the same financial relation to the municipality as a General Hospital under the terms of the *Hospital Act*. The City of Boston has now a Reception Hospital which might well be considered a model for Toronto. The State Hospital for the Insane is located at Dorchester, twelve miles away, and all emergency and incipient cases are first cared for at the Reception Hospital. Many of them are cured there without having to be certified and sent on to the larger State institution. The work that is being carried on so successfully at Boston and other American cities can be successfully inaugurated in Toronto. The notion that those manifesting the slightest symptoms of insanity form a special class of dependents and must be cared for by the Province in the large Provincial Hospitals is most misleading. The Province cares well for all suitable cases, but the necessity of taking care of the borderland cases, those in whom progress of disease may be prevented, will surely soon be recognized by local philanthropy.

SANATORIA FOR CONSUMPTIVES.

During the past year 1,781 patients were admitted to the local Sanatoria for consumptives. When that number is compared with the total number of cases which are known to exist in Ontario, it will readily be seen that only a small percentage of patients suffering from tuberculosis are receiving hospital care. More and more it is becoming apparent that it is desirable to have more local sanatoria

established in different parts of the Province. The consumptives of each county, or group of counties, should have separate provision made for them where they can be cared for near their homes, and be occasionally visited by their own physicians. The work already done in this respect at St. Catharines, London, Hamilton, Ottawa, Gravenhurst, Kingston and Toronto, is an example which other districts should follow. The new Sanatorium for Essex County was opened during the past year and is doing excellent work. Waterloo County will have completed its sanatorium during the coming year. In some places the idea has prevailed that in establishing local sanatoria it would be necessary to copy the usual methods of hospital construction, and the question of expense has stood in the way. Expensive and ornate constructions should not be thought of in preparing plans for the housing of consumptive patients. The one aim should be to provide for a maximum amount of pure air at a minimum expense in architectural outlay. A frame building with wide verandahs and a few shacks comfortably fitted up would surely be an investment that every county in Ontario could profitably make. The many instances that we have in Ontario where consumption has been cured is assuring evidence that should justify the establishment of municipal sanatoria, especially when the Government grant is liberal. The districts in Germany, England and Scotland that have had sanatoria established for several years demonstrate the fact that these institutions are never a menace to the community where they are located. On the other hand, it is clearly shown that there is less tuberculosis in the immediate neighborhood of the institutions than there was previous to their establishment. We know that Gravenhurst has not suffered in any sense by having the two hospitals for consumptives so convenient thereto. This country is gradually awakening to the proper methods of dealing with the white plague and the next decade will no doubt bring about greatly increased sanitarium facilities for the proper care of the consumptive individual. The establishment of these local institutions will not only effect a cure, or improvement, in patients under their shelter, but one of their great missions will be to teach a proper mode of life to the community in general and to the consumptive in particular. They will spread the gospel of a life in pure air as the only proper mode of life for every human being.

On account of the efforts made to educate the public regarding the nature of tuberculosis and the successful means which may be adopted for its prevention, the death rate in Ontario is year by year growing less.

This splendid result must be ascribed to the efforts made by the Provincial Board of Health through the efficient District Officers to bring its Exhibit with its striking educational features before the people, to the introduction of suitable text books in our schools, as well as the dissemination of suitable literature, to the work of the local sanatoria with their dispensaries, and visiting nurses, and to the fact that the people of Ontario are more than ever appreciating the fact that healthy homes and pure air are the great essential necessities to rid this country of the disease.

PRIVATE HOSPITALS.

There are now 73 private Hospitals under Provincial license in accordance with the Act. A private hospital is defined as a house in which two or more patients are received and lodged at the same time, and if any house is used as private hospital without a license the occupier and all persons concerned in its management shall incur a penalty not exceeding \$25 for every day during which

such use is continued. Every application for license to keep a private hospital must be made in writing to the Provincial Secretary, and shall furnish the full particulars as set forth in the Act. A fee of \$5 must accompany each application for a license which cannot be granted unless the house is approved by the Inspector as suitable for the purposes indicated in the application, and the Provincial Secretary is satisfied as to the character and fitness of the applicant. Every licensed hospital shall according to the tenor of the license issued be either: (a) a licensed maternity hospital; (b) a licensed medical and surgical hospital or; (c) a hospital licensed both as a maternity and as a medical and surgical hospital. Every license must state the maximum number of patients who may be received and lodged in the hospital at any one time. Every license must be renewed annually in the month of October and the fee of \$5 paid to the Provincial Secretary for the continuance of the license. The conditions under which a license may be revoked are clearly set forth and are sufficiently restrictive to render it absolutely necessary that a private hospital must be properly equipped, and conducted in a creditable manner. The superintendent of every private hospital must, under special exemption granted only by the Provincial Secretary, be either a legally qualified medical practitioner or a trained graduate nurse. Every private hospital must keep a register of patients open for inspection. If the Inspector believes or suspects that any house is used as a private hospital without being licensed he may at any time and from time to time, by himself or by any person authorized by him, enter and inspect such house and every part thereof, and any person who prevents or obstructs, or attempts to prevent or obstruct, any such entry or inspection shall incur a penalty not exceeding \$200. A licensed hospital shall not be used for any purpose other than the purposes in respect of which the license is granted, nor for a greater number of patients than that authorized, under a penalty of \$25 for every day during which it is so used. Births and deaths in a private hospital must be punctually registered. The deplorable condition that formerly permitted illegitimate children, born in private hospitals, sometimes designated maternity homes, to be secretly taken away to some isolated baby farms, is being gradually lessened. Every effort is being made to have these infants nursed by their own mothers and no departure from this rule should be permitted except under most exceptional circumstances.

FIRE PROTECTION.

Ontario has been most fortunate in freedom from fires in its hospitals and charitable institutions. The large majority are unfortunately not of fireproof construction, hence the absolute necessity of insisting on proper fire protection in every institution where the sick and helpless are cared for. This is constantly urged and made a subject of report in every inspection. The licenses of two private hospitals were cancelled during the year on account of failure to provide the conditions called for.

It is gratifying to note that there has been considerable improvement of late in the facilities for fire protection at the hospitals and public charities of Ontario. Too great caution cannot be taken to have constantly at hand not only simple and effective means for checking a fire, but also a recognized and well understood system for the quick removal of the inmates if danger should be threatened. Those in charge of these refuges have in nearly every instance cheerfully complied with the suggestions that have been given, and it is pleasing to record many observed incidents indicating faithful and conscientious devotion to duty in caring for the old and infirm committed to their care.

THE UNDESIRABLE IMMIGRANT CLASS.

Attention must again be called to the fact that a large number of undesirable and unsuitable immigrants have been induced to come to Ontario and have, shortly after landing, become a public charge on our hospitals and charities. There are no more benevolent and patriotic people to be found anywhere than those who so generously support the charitable institutions of this Province. They have just reason to complain of the unreasonably large number of dependants and defectives that some designing agencies have induced to seek shelter here. The most kindly spirit has been displayed by our charitable organizations to provide for the needy and the sick, but when week after week cases are reported that should have been kept at home and apparently were only sent to Canada to be gotten rid of, it is little wonder that protests are made. Any system that permits steamship, or any other agency to induce immigration, without proper discrimination, cannot be defended. During the past year it has cost the hospitals and public charities of this Province of Ontario many thousands of dollars to provide for people who should never have been allowed to embark for this country. The fault lies in the system that allows these poor people to have their little means taken from them on the other side of the Atlantic and told they will be well looked after in Canada. The time and place to check the undesirable immigrant is when proposing to leave his domicile in the Old Country and before he agrees to pay the steamship agent double what his fare under ordinary circumstances would be. The fact that the dependents who become a public charge may be deported affords a most inadequate remedy. Deportations are made weekly from Ontario, but no one will become a party to insisting on a poor advanced consumptive or a helpless epileptic or imbecile undertaking an ocean voyage to his home. Many of these people tell pitiable tales of the false hopes held out to them by the wary steamship agent to induce them to leave home and come to a land pictured as all sunshine and prosperity.

CITY REFUGES RECEIVING GOVERNMENT AID.

There are 43 Refuges and Homes in Ontario receiving Government aid. The total population during the past year was 6,176. The total expenditure for the maintenance of these Refuges for the year was \$480,378.83 Towards this expenditure the Government contributed \$85,878.48 to be divided among the institutions at the rate of seven cents per day, as provided for by the Charity Aid Act, according to the length of residence of inmates, the balance of the expenditure being contributed by subscriptions, bequests, municipal grants, etc. These Refuges have all been regularly inspected according to Statute, and suggestions made in some instances for their improvement. Often it was found that there was a tendency to crowd too many inmates in dormitories and thus limit the air space. The regulation demanding that in every dormitory there must be a space of at least two feet between each bed and that each sleeping apartment must be properly ventilated, is not observed as well in some institutions as in others. Those in charge of these Refuges are fortunately realizing more than ever before, the responsibilities resting upon them for the care and protection of the old and helpless people committed to their care. The municipal grant received by these Refuges from the cities and towns wherein they are located must hereafter according to recent legislation at least equal the Government grant. Unfortunately this has not been the case in some municipalities. For example, in Ottawa the

municipal grants to the Refuges of that city last year amounted to \$6,300.00 while the Government grants to these institutions were \$15,325.03. This is not as it should be and suggests the wisdom of the Act which now states that in no case shall the Government grant be greater than the annual municipal grant for the maintenance of these institutions which largely exist for the benefit of the Municipality in which they are located. This must in future be definitely understood. As soon as the local municipality appreciates that the local refuges must receive municipal aid equal to that coming from the Government the relief will surely not be withheld.

HOUSES OF REFUGE.

There are now 31 County Houses of Refuge in Ontario, a new one for the United Counties of Stormont, Dundas and Glengarry having been opened at Cornwall during the past year. During the past year the average number of inmates in the County Houses of Refuge was 1,810. Nearly all these institutions are well conducted and the inmates provided with comfortable homes. Those counties which hesitated for many years before complying with the statute, which compels each county to provide a home for its indigents, now recognize their local institutions are a necessity and that in making provision for the old people, a humane step has been taken. There are many Houses of Refuge in Ontario that do credit to the counties which have erected and are maintaining them. There are a few instances, however, where there is an apparent tendency on the part of the county councils to neglect the duty of keeping up the necessary repairs and improvements needful for the comfort of the old people committed to these institutions. The comfort of the inmates so much depends upon the management. The time has come when every House of Refuge should have an efficient nurse to care for the sick and infirm. The inmates should never be allowed to care for themselves. This condition, fortunately, is now confined to only a few counties. At some of the institutions where I have pointed out the necessity of reforms being instituted in order to have the inmates, their bedding and clothing, kept in a proper condition, the argument has been raised that the inmates were never as comfortable in their lives before. From that point of view such contention may in some instances be correct. But such a point of view is not the right one to take. These Houses of Refuge are public institutions, maintained and supported by the ratepayers, who have a right to expect and demand that abuses shall not be tolerated. It is not in any way encouraging extravagance to insist that these institutions should be kept clean and free from vermin, and that the inmates when sick should have some one employed to nurse them and minister to their needs. When proper help is employed there is no difficulty in conducting these Houses as they should be. The result of the past year's inspections affords gratifying evidence that in nearly all the Counties an earnest effort is being made to conduct the Houses of Refuge properly, and some of the institutions that were criticized in previous reports have been greatly improved.

The recent legislation, which has done away with the right to tax municipalities according to the number of poor sent to Houses of Refuge, is most satisfactory. The cost of maintenance is now levied on the whole county.

ORPHANAGES.

During the past year 33 Orphanages have received Government aid. These institutions had a total population of 5,261 children. The total expenditure for the maintenance of these charities during the year was \$217,605.42. The Govern-

ment grant to assist in meeting that expenditure was, at the rate of two cents per day, \$18,796.39, the balance being contributed by private donations, municipal grants, etc. An official visit of inspection was paid to each of these institutions. The domestic management was found in nearly every Orphanage to be carefully and prudently looked after. The funds contributed for the maintenance of these institutions are expended most carefully, and their financial returns compare most favorably with those of similar charities in other countries.

The number of children in the Orphanages of Ontario is 263 more than last year. This is not a hopeful sign, and on inquiry I find that the increase in the number of inmates is in many institutions ascribed to the many children belonging to the immigrant class, recently arrived in this country, who have had to be provided for. The best institution is a poor substitute for the home. The Children's Aid Societies throughout Ontario have more applications for children for adoption than can be supplied, and it seems peculiar that so many children should be kept in Orphanages who might be adopted into comfortable homes. Nearly all the institutions for the care of children in Ontario are well managed, but at best the life of a child therein is deprived of that broadening development that comes from intercourse with outside children. The environment in childhood has a potent influence in moulding character. No matter how kindly cared for they may be in these institutions, there is lacking some of the elements that make for rugged upbuilding of character. We are yearly providing in Canada comfortable homes for hundreds of children brought out from the Orphanages of Great Britain while keeping so many of our own native born young Canadians housed in our own institutions. The majority of people taking English children express a preference for Canadian born, but for some reason their wishes cannot be complied with. The fault lies, I am convinced, not nearly so much with the people in charge of our Orphanages as with the persons who commit children to these institutions with the expressed understanding that they must be kept there and not given out for adoption into private homes. I have expressed the opinion that the rules governing the admission of all inmates should be changed so as to permit the management of all our Orphanages, after a child has remained a certain period, to decide in regard to his removal for adoption.

My visits of inspection, and my daily communication in one form or another with the Hospitals and Public Charities of Ontario, impress me with the fact that these institutions are, with very few exceptions, conducted in a manner that deserves commendation. Those in charge generally esteem the duty and privilege of personal service, and appreciate the fact that whatever may be the nature of the work which engages their attention, however they may be absorbed in plans for the enlargement and betterment of one particular scheme and method, they seldom lose sight of the fact that it is the suffering and the necessitous for whom they are planning and acting, and that only in so far as this suffering is alleviated and these necessities relieved can they claim true success, or rest satisfied with their labors. Two thousand years ago it was said by Him who while on earth went about doing good, "The poor ye have always with you." This saying is equally true to-day, and the best results can be accomplished and the highest level of achievement reached only by responding with the best that is in us to accomplish the tasks duty and privilege have assigned us.

R. W. BRUCE SMITH, *Inspector.*

ORPHAN ASYLUMS

The statistical tables on the following pages of this report show an increase in the contributions to several of the Institutions, while in some cases there is a falling off as compared with last year.

The total number of children cared for in the Orphanages during the year was 5,261, as compared with 4,998 in 1912.

In the tables will be found full details of the receiving and discharging of children, etc.

The statistics relating to the sex and previous residence of the inmates are given in the following summary:

Sex.

Male	2,649
Female	2,612

5,261

Previous Residence.

Received from cities in which Orphanages are located	3,848
Received from counties in which Orphanages are located	364
Received from other counties in the Province	728
